Reliable news for healthy living, saving money, and having fun August 2019

Volume 12 Issue 4

Happy August!!

I hope that all of you have had a wonderful summer. It is hard to believe that it is almost time for school to start back up. We have been busy working on some of the school projects in the area. Hopefully, you guys and/or your kids will get to see some of it when school starts back. WTAMU and Amarillo College Ware Lab both had projects we are honored to be part of. Other area schools we got to be part of include Hedley ISD, Perryton ISD, Gene Howe Elementary, Fannin Middle School and Amarillo Collegiate Academy. Even though our schedule can get a little crazy trying to get them all done right before school starts back, it is always great to see the finished product and know that we were part of making that 1st day back an exciting new environment for staff and students. We hope that everyone has a great first day back and a wonderful school year.

We also did a lot of polished concrete over the summer. The new Toot N Totum in Canyon has polished concrete and looks absolutely stunning. We have started on the new store on Hunsley Road in Canyon as well. Our crews also polished the concrete at the new Tornado Laundromat on Bell St. We have worked with them at all of their locations in town and appreciate the relationship we have built with them. The Tri State Fairgrounds Amarillo National Center was a huge project that we are proud to have been a part of as well. We polished all of the concrete upstairs and downstairs. This is a project that we know that lots of you will get to see over the years and hope that you will keep it in mind for any project we might can help you with some polished concrete, whether it be commercial projects or in your home. We have done some beautiful polished concrete in homes as well.

We are a little over half of a year through our new ownership. It has been quite the experience and we are all enjoying the opportunity to grow and learn so much more than we ever dreamed possible. Jerry is still here with us and we are so appreciative of him guiding us through this transition. He has gone above and beyond anything we could ask for. He has even been out running crews and polishing concrete when we need him to.

Please reach out to us with any questions or concerns that you have. We would love to work on any project with you that we can.

Carpet Pad Facts

The carpet pad serves a variety of additional purposes:

- It creates a softer "walk" or feel to the carpet. Many homeowners think this is the whole point of a pad, but it's not. In fact, the best pad for a particular carpet may provide less foot comfort than an inferior one.
- A pad makes cleaning your carpet more efficient. When you have padding, your vacuum cleaner can raise the carpet slightly and remove more dirt, which helps reduce allergic reactions.
- It provides thermal insulation. A pad stops the drafts that can seep through some porous carpeting. Padding has higher R-value -- which measures a material's ability to keep heat from passing through it -- than carpet, keeping the room warmer.
- Carpet padding dampens sound. This is especially important for upstairs rooms, but even in a basement, a pad reduces sound more than a carpet alone.

If you're replacing carpet, don't be tempted to save by using the existing pad. It almost always needs to be replaced. Before choosing your carpet pad, you should look at where you'll use it. Think about what kind of activities or traffic the room sees, and choose a pad that can take a beating if you think you'll be rough on it. If you stand a lot or have kids who will play there, consider thicker padding for increased comfort. Does someone in your home use a wheelchair? They don't roll well on soft padding, so take that into account, too. Regardless of everything else, when choosing your carpet pad, it all comes down to your particular needs.

Gardening

By: The Farmers' Almanac
August 2019

1st - 3rd Best for killing weeds, briars, poison ivy, and other plant pests. Clear wood lots and fencerows.

4th - 5th Excellent for sowing grains, winter wheat, oats, and rye. Plant flowers. Good days for planting aboveground crops.

6th - 7th Plant seedbeds. Plant peas, beans, tomatoes, peppers, and other aboveground crops in southern Florida, California, and Texas. Extra good for leafy vegetables.

8th - 10th Cut winter wood, do clearing and plowing, but no planting.

11th - 12th A good time to plant aboveground crops.

13th - 14th Barren days, fine for killing plant pests.

15th - 17th Excellent for any vine crops such as beans, peas, and cucumbers. Good days for transplanting. Favorable days for planting root crops.

18th - 20th Neither plant nor sow on these barren days.

21st - 22nd Good days for transplanting. Root crops that can be planted now will yield well.

Weather

By: The Farmers' Almanac
August 2019

1st - 3rd Heat, humidity prevails.

4th - 7th Big thunderstorms, possibly severe.

8th - 11th Clear, dry.

12th - 15th More clouds than sun.

16th - 19th Widely scattered showers, thunderstorms.
